Commercial Solar Installation Case Study

Philotechnics, San Diego

A national waste management company that specializes in clean-up and disposal of hazardous materials, Philotechnics looked to Baker Electric Solar to deliver a solar solution that would effectively reduce and stabilize their costs at their growing San Diego branch. Philotechnics took advantage of both the California Solar Initiative rebate program and the Federal Tax Credit.

PROJECT

System Size:

18.1 kW

PV Surface Area:

approx 1,300 sq. feet

Sunpower 215 Panels

Qty: 84

2 SUnpower 7000m

and 1 Sunpower

5000m Inverter
